

CHANGE THE WAY YOU DO BUSINESS

SoftOne Technologies

SoftOne Technologies is one of Europe's most dynamic software vendors, focusing in the development of ERP, CRM and innovative Cloud Services. SoftOne delivers both on-premise and Software as a Service (SaaS) business solutions for growing midsize businesses and large organizations. Soft1 solutions are powerful, intuitive and simple. They unify business processes across the enterprise, using a single, integrated platform.

Think Business!

The award winning **Soft1 ERP** is so much more than an enterprise resource planning system. Available in the Cloud or on-premise, it provides you with everything you need to better manage your entire business.

Soft1 CRM brings your customer information in one place and leverages that data to help you market, sell and support your customers more effectively.

With more than 17.000 customers in several international markets and a wide >300 Channel Partners Network, SoftOne provides its customers with top quality business software and services. Counting more than 3.000 Cloud installations, SoftOne's state of the art Cloud solutions stand out for their innovation, reliability and effectiveness.

Do more with less

Do more with less utilizing the innovative Soft1 Cloud Services. From Cloud ERP and CRM to online Accounting and e-Invoicing, you can now better run every aspect of your business, experiencing reduced operating costs, increased business efficiency and better customer service.

Realize the full value proposition of the Cloud, with innovative pay-as-you-grow Software as a Service business solution.
