

TANIS

a
game

of
taste

The company was created in 1992 by the Tanis family lead by Thomas Tanis (inventive restaurant owner with 20 years of culinary experience at that time), with a vision to make tasteful, easy to use, no preparation and cost effective products available to every kitchen. The first few years the focus was producing a few artisanal products for the local market, targeting delicatessen and small catering stores.

Following a self-financed investment, the company has expanded creating production, processing, packaging, and storing facilities spanning 1.000 square meters in three different production lines both automatic and hand-made, covering the range of professional cuisine, with a multitude of products for every use case and presentation.

Since 2008 the company changed its form to a cooperation, following the second generations' (the two sons Dimitrios Tanis & Ioannis Tanis) involvement in running the business, still retaining the family character and ethos.

Utilizing innovative techniques and custom-made equipment the product range now spans over 50 products at different packagings and at the same time, conformance to the food safety & hygiene standard (HACCP) and quality control and assurance (ISO 9001), guarantees that every time, our products will be the same and taste the same at a surpassing quality.

Taste

Our passion for taste is our driving force. Our products play and mix with every taste in order to cover everyone's taste.

Artisanship

Despite our expansion and growth, we are proud to have retained the artisanal character of our products, differentiating us from the rest of our competitors.

Naturality

We are carefully selecting the best ingredients at their optimal ripeness and make limited use of additives, to produce clean label products.

Innovation

Remaining a pioneer means innovating and as such we are constantly searching for new ways to combine and transform raw ingredients to food delicacies.

Simplicity

Our goal is simple; to provide you with a wide range of tasteful, efficient, time saving and eye catching products.
